

Giacomo Ricci

JUNIOR UX/UI DESIGNER

Who am I?

"Hi I'm a curious **Junior UX/UI Designer** with background in **Product Design**.

Less is More truly defines what design means to me.

I'm particularly interested in interaction clarity, usability, and scalable design systems.

I enjoy **experimenting** with video editing and cover artwork in my free time.

If I had to say one of my strenghts, I would say that I'm especially drawn to how small details can **improve** usability and make interactions **smoother**."

EXPERIENCE

2026 | SKETCHIN INTERNSHIP

UX/UI Designer

I've conducted UX analysis and competitor benchmarking to identify friction points within product discovery and checkout flows. After that I've also re-architected information architecture and navigation to improve product findability and reduce user effort. In the end I've streamlined the checkout experience, reducing steps from 6 to 3 steps to simplify decision-making and streamline the purchasing experience.

2026 | HOMIZY INTERNSHIP

UX/UI Designer

Designed end-to-end user flows for a coliving platform, restructuring booking and shared-space interactions. Subsequently I've built user flows and high-fidelity prototypes in Figma to improve navigation clarity and reduce cognitive load. Iterated interface solutions based on usability reasoning and interaction consistency across multiple touchpoints.

2023 | BIAGETTI DESIGN GROUP INTERNSHIP

Product Designer

This was my first work experinece, I've contributed to product and spatial design projects by translating user needs into functional and visually coherent solutions. Then I've applied user-centered design to enhance usability and interaction efficiency, and delivered scalable.

EDUCATION

2025 - 2026 | TALENT GARDEN, MILANO

Master in UX/UI and Digital Skills

2021 - 2025 | ACCADEMIA BELLE ARTI, RIMINI

Bachelor's Degree in Product Design
